Projects References

1-BEYTI "ELMARRAI Dairy Factory":

Project : Main Plant Drainage Station

Description : Concrete work and electromechanical work including the submersible pump supply & installation for the main drainage system of the plant.

Projects References

1-BEYTI "ELMARAAI Dairy Factory":

Project : Modification work for new yoghurt production hall.

Description :

- construction and preparing a road 1 km road for entering the production machines.
- Re-Routing the fire lines , Emergency Exit doors for the yoghurt production halls.
- Dismantling and reinstallation for sandwich panels to enter the capital equipment.
- Food Safety Isolation work for the old production hall to avoid stop the production.

Projects References

1-BEYTI "ELMARRAI Dairy Factory":

Project : Concrete base for fire water tanks Capacity 500 ton each.

Projects References

2-MARS Chocolate Factory :

Project : Fabrication and installation of Glucose storage tank double jacketed piping connections:

Projects References

2-MARS Chocolate Factory :

Project : Assembly and installation of **Spirax Sarco** condensate pump in the utilities corridor

Projects References

3-Danone Dairy Factory :

Project : Installation of utilities piping for new **BOSCH** yoghurt machine

Projects References

3-Danone Dairy Factory :

Project :

Installation of **Spirax Sarco**

Steam Pressure Reducing station:

Insulation of **GEA** yoghurt
heat exchanger piping

Projects References

4-Juhayna Elmasria Dairy Factory :

Project : boiler room Energy saving project

QTY.3 TDS Control installation

QTY.2 Flow meter station

Flash Recovery Vessel

De-aeration head and heating system for feed tank
